## Young Author

Jyrah Ludie John, a student from class 6, has published her own book! Jyrah loves music, and when her dad told her that some songs are meant for adults and children shouldn't sing them, she had a brilliant idea. She asked, "Why should adults have all the fun?" Inspired by this question, she rewrote those adult songs into kid-friendly versions, and those songs have now become a delightful book called "Adult Songs For Kids"

# TED Talk Show

## Did You Know?

Did you know that seven children from Mayflower School have spoken on TedEd? Notably, Jessica from Class 8 has been featured on TedEd's channel! These young speakers have honed their public speaking skills through innovative theatre techniques. By integrating drama into their learning process, they have gained the confidence and ability to speak on world platforms.

This unique approach not only enhances their communication skills but also empowers them to share their stories and ideas with a global audience.

# Theatre Class

If your child has studied here in previous years, you must have witnessed our grand theatre performances at the end of each year. These productions are truly special because they involve every child getting on stage and are entirely created by the students themselves!
