Keep Hydrated This Summer

B&B

As the summer sun shines brighter and temperatures soar, it's more important than ever to stay hydrated! Water is your body's best friend, especially during hot days when you sweat more and lose essential fluids.

Why is hydration important?

Drinking enough water helps:

- Keep your body cool
- Boost your energy
- Improve focus and mood
- Prevent headaches and tiredness

Tips for Students and Parents:

- Start your day with a glass of water
- Carry a water bottle wherever you go — refill often!
- Eat water-rich fruits like watermelon, cucumber, and oranges
- Avoid too many sugary or fizzy drinks

Let's make water our summer superpower!

Stay cool, stay active, and don't forget to sip water regularly throughout the day.
